

Are you battling the hygiene clock because of insufficient time for patient treatment?
Ever feel like hygiene patients are leaving the office “unfinished”?
Frustrated due to a “locked-in” and unproductive hygiene schedule?

Launch YOUR Structured Periodontal Program!

Set your practice on a course to healthier patients and profitable periodontal therapy with the **educators who have trained thousands of dental teams** in the protocols and skills necessary for building a successful periodontal program.

- Enhance the quality of care for your patients through an emphasis on the systemic effects of periodontal disease
- Learn an integrated approach to patient care from scheduling to diagnosis, co-diagnosis, treatment planning and handling fees
- Develop verbal skills that increase both collections and production
- Gain billing, coding and insurance best-practices
- Identify documentation protocols that protect your practice while providing optimal patient care
- Understand practice performance indicators and how to monitor hygiene department and growth
- Empower the hygienist in enhancing quality of patient care
- *Dramatically* alter the practice's financial performance, retire debt in a timely manner and achieve financial stability

Bring perio therapy and
productivity back to your practice.

Maximize your patient's benefits, make it affordable,
and optimize patients' oral and systemic health.
